

Michael Mason

Software Engineer | Backend & Full-Stack Developer

Email: me@mikemason.dev

GitHub: github.com/masonmike2001 | **Portfolio:** mikemason.dev | **LinkedIn:** linkedin.com/in/masonmike2001

SKILLS & CERTIFICATIONS

Languages: Java, Python, TypeScript, SQL

Backend and Frameworks: Spring Boot, Spring MVC, Spring Data JPA, Thymeleaf, Flask

AI / LLM Applications: Ollama, Local LLM Integration and Prompt Workflows

DevOps & Tools: Git, Docker, Podman, Linux (Fedora), Bash

Databases: PostgreSQL

Concepts: REST APIs, MVC Architecture, OOP, Containerization

Certifications: ITIL 4, LPI Linux Essentials

EDUCATION

Western Governors University – **B. S. Computer Science** | **January 2025**

PROJECTS

AstroLlama | TypeScript, Obsidian API, Ollama, Node.js

GitHub: github.com/masonmike2001/astrollama

- ▶ Designed plugin architecture integrating Obsidian event lifecycle with local LLM inference (Ollama API) for offline AI processing
- ▶ Built prompt workflow engine supporting structured markdown generation, rewriting, and note augmentation
- ▶ Implemented dynamic wiki-style knowledge graph generation with automated file creation and bidirectional linking
- ▶ Engineered local-first design eliminating external API dependency, improving privacy and reducing latency

Novel Outliner | Java, Spring Boot, Podman, PostgreSQL, Thymeleaf

GitHub: github.com/masonmike2001/novel-outliner

- ▶ Developed RESTful backend using Spring Boot with layered MVC architecture and Spring Data JPA persistence
- ▶ Designed relational PostgreSQL schema supporting chapters, metadata, and structured word-count planning
- ▶ Built server-rendered frontend using Thymeleaf for interactive outline creation and editing
- ▶ Containerized application and database using Podman for reproducible builds and deployment consistency across environments

WORK EXPERIENCE

Financial Customer Associate II - (Pension/401k)

Nov 2024 – Present

Fidelity Investments

Merrimack, NH

- ▶ Support retirement and pension customers in a high-volume environment.
- ▶ Resolve account and transaction issues across multiple internal systems with strict compliance standards.
- ▶ Improved Average Handle Time by 34% through workflow optimization.
- ▶ Act as escalation point for research requests across teams.

Emergency Medical Technician

July 2022 – Oct. 2024

Brewster Ambulance

Worcester, MA

- ▶ Provided emergency medical care and patient transport in high-pressure environments.
- ▶ Assessed patients and delivered care following emergency protocols.
- ▶ Documented patient care reports accurately under legal and medical standards.
